

TEMPORARY STORAGE TANK / DECONTAMINATION TANK

- Framed temporary storage tanks.
- Heavy duty PVC and PU material resistant to abrasion.
- Excellent oil resistance
- Compact storage
- Can be used in a wide temperature range
- Easy to carry
- Inexpensive
- Accessories available: ground and anti – slip mat, drain valve.

The STORAGE TANK is self-supporting with a lightweight frame. This makes the STORAGE TANK exceedingly simple and quick to erect.

STORAGE TANKS are handy, lightweight temporary storage tanks that have a very low storage volume when not in use. When they are required they are simply unfolded or erected – then they are ready to fill.

STORAGE TANKS are available in a wide variety of sizes, the smaller units are especially compact and lightweight allowing one man to carry and fill without special tools.

TEMPORARY STORAGE TANKS are suitable for storage of many kinds of liquids including oils and wastewater. Equally they can be used for the temporary storage of oiled materials (clothing, sorbent, trash) prior to disposal. It can also be used for the decontamination of personnel and small equipment.

The STORAGE TANK offers a lightweight and versatile solution to the problems of temporary storage of oily wastes. It is a valuable addition for any oil spill clean up operation.

External frame of aluminium or built in frame of stainless steel	8,000 litre	3.4 x 3.4 x 0.71 m (L x W x H)
	6,000 litre	Ø2.5 x (H)1.25 m
	1600 litre	2.2 x 1.1 x 0.71 m (L x W x H)
	800 litre	1.1 x 1.1 x 0.71 m (L x W x H)
